

***Read Complete Instruction before starting installation.**
Install and use this product following your local electrical codes and regulations.

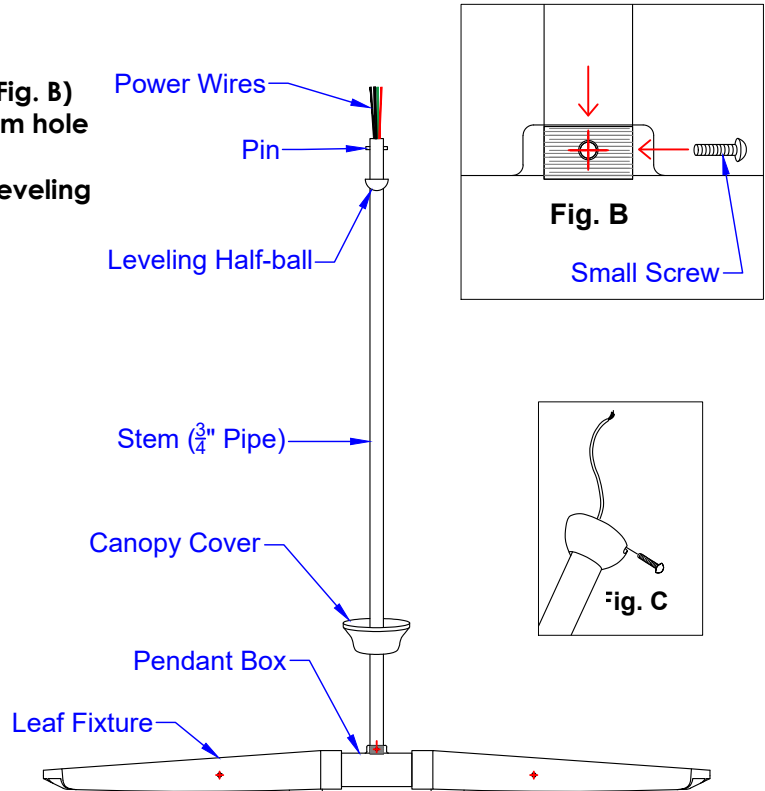

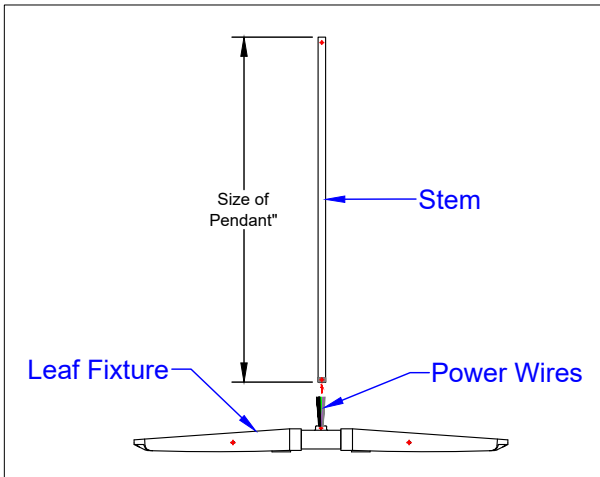

STEP #1 - Attach Swivel Canopy Mounting Bracket

1. Turn off current at fuse or circuit breaker.
2. Place rubber washers between ceiling fixture box and black bracket.
3. Align holes and secure bracket to box using 1 1/2" machine screws, flat washers and lock washers supplied. (Fig. A)

STEP #2 - Attach Stem to Pendant Box

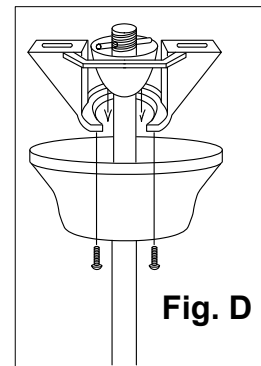

1. Feed Power Cord/Wires through Stem
2. Secure Stem to Pendant Box until holes align (Fig. B)
3. Once aligned, tighten small screw through Stem hole
4. Slip Canopy Cover onto Stem
5. Slide Leveling Half-ball on Stem, lock Pin into leveling half-ball and secure with set screw (Fig. C)

STEP #3 - Attach Stem to Mounting Bracket

NOTE: Requires two people minimum

6. Lift Double Leaf fixture and slip Stem/Leveling Half-ball onto Mounting bracket. (Fig. D)
7. Connect green grounding wire of leveling ball to grounding conductor in ceiling fixture box.
8. Make proper wire connections in ceiling box
9. Place canopy cover into proper position over black bracket and secure with screws (Fig. D)
